

Home Learning Instructions

Subject: Maths Year 6

Week 6

Objectives:

6 12/10/2020	Monday	Long division (2)
	Tuesday	Long division (3)
	Wednesday	Long division (4)
	Thursday	Factors
	Friday	Common factors

Learning activities (in order to be completed):

Most of your lessons from now will be based on the videos and worksheets from White Rose Maths, which is what we follow in school. There are four/five lessons a week, with a worksheet for each lesson. Please watch the video and try the questions. You may need to watch the video more than once or pause it whilst you think through the new learning – that is absolutely fine to do. We have also included the answers so that you can mark your work to make sure that you understood it.

Here are the links for the videos <https://whiterosemaths.com/homelearning/>
Please select your year group and week 6

Any additional time can be used to play on TT Rockstars or go over lessons from this week to refresh your memory. My Maths is also still available if you require further support.

Please use your school email address to contact your teacher if you need any help.

Resources:

The worksheets which go with the videos

When work has been completed, please send to your teacher at @windsorpark.staffs.sch.uk using your school email account or bring it into school on your return.
