

Learning objectives:

To evaluate the effects of flooding

Learning outcomes:

All pupils must: be able to begin to categorise and describe information about the effects of flooding

Most pupils must: be able to categorise and begin to explain effects of flooding using some geographical words

Some pupils could: be able to categorise and explain in detail the effects of flooding using geographical words

What is a cause and an effect?

- A cause is something that makes something happen
- An effect is something that results from an action or cause

You have two minutes to discuss with your partner and form a definition of these three type of effects

Economic effects -
effects to do with cost

Environmental effects -
effects on the environment

Social effects -
effects to do with peoples' lives

Your Task

- Read the pieces of information showing the effects of flooding
- Summarise the information and place it in the correct place on the Venn diagram.

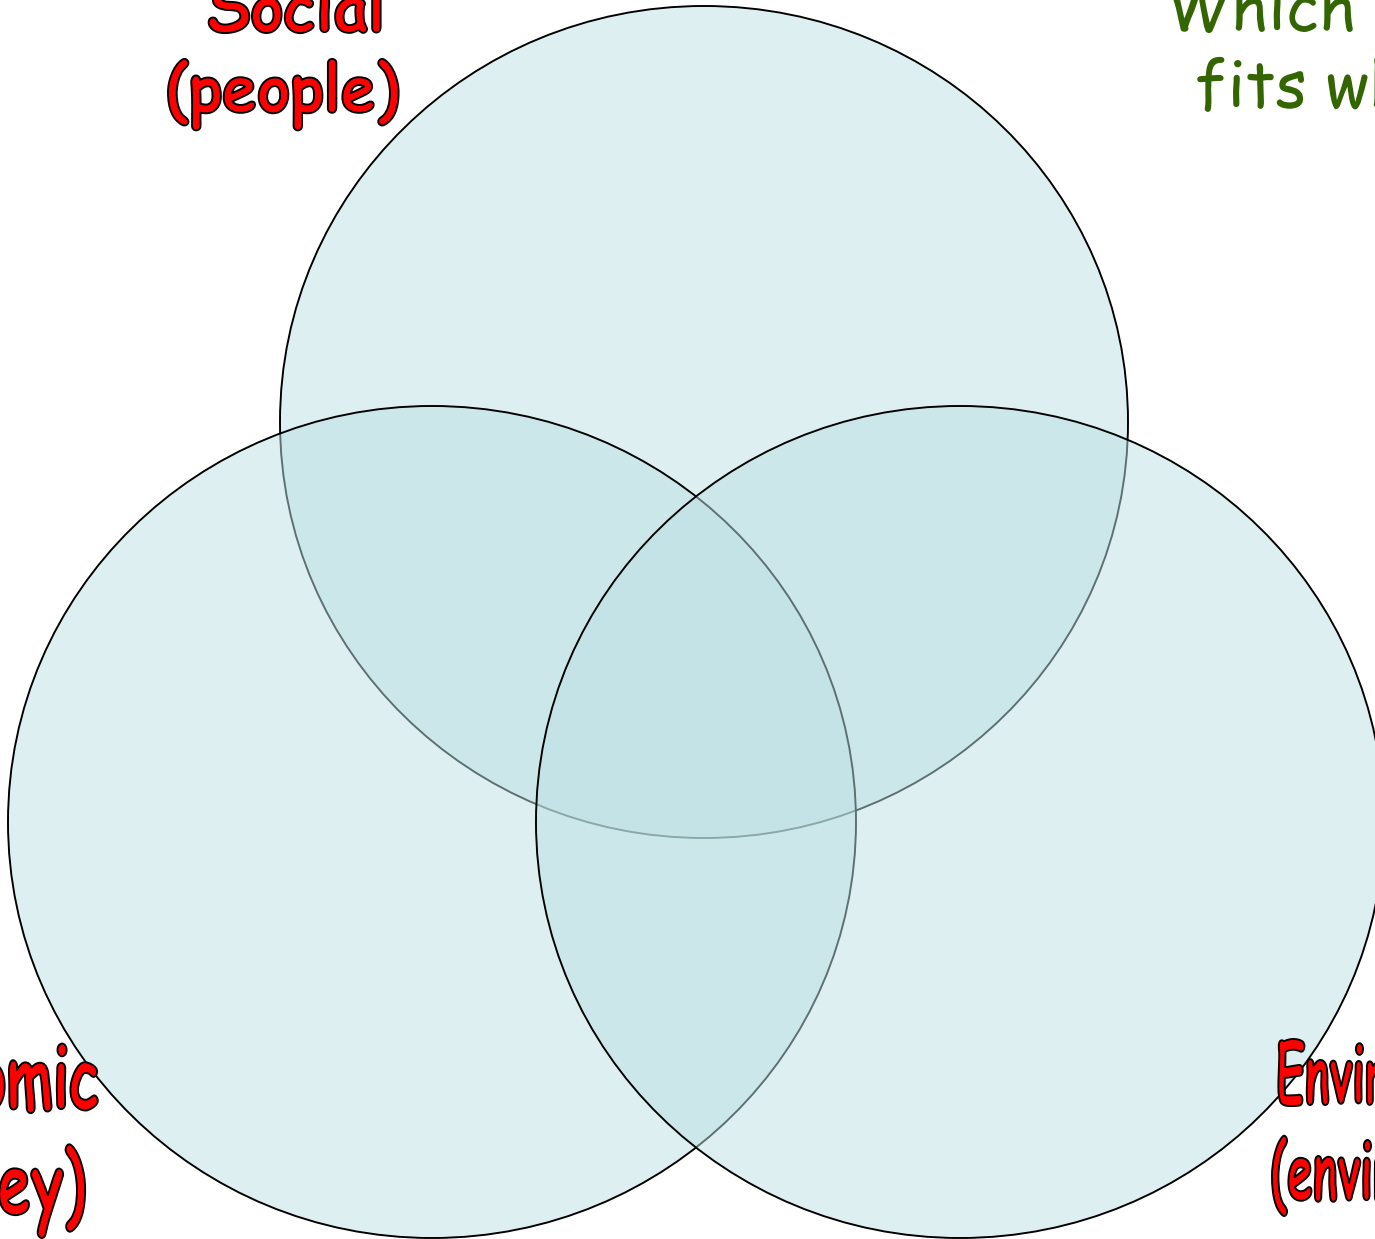

**Social
(people)**

Which reason
fits where?

**Economic
(Money)**

**Environmental
(environment)**
